

NEW

VRT3 Series Unloaders

NORTH AMERICA
First Choice When Quality Matters

FEATURING

- Over sized handle - easier adjustment
- Forged valve body - excellent strength
- Two inlet ports
- Two by-pass ports
- Ultra thick inlet and discharge ports - added strength
- Color coded springs and caps - easy valve identification
- All ports are FNPT

New Models	PSI	Spring Color	Equivalent to Old Models
VRT3-160	2320	Yellow	AL605Y, AL605, AL605X
VRT3-250	3650	Blue	AL606, AL606X
VRT3-250A	3650	Blue	AL606XA
VRT3-250PS6 (with pressure switch)	3650	Blue	AL686
VRT3-310	4500	Black	AL607, AL607X
VRT3-310A	4500	Black	AL607XA
VRT3-310EZ	4500	Black	AL607EZ, AL607XEZ
VRT3-310PS6 (with pressure switch)	4500	Black	AL687

NEW DESIGN FEATURES

- **INTERIOR DESIGN:** more efficient flow and operation.
- **DUAL LOCKING NUTS:** vibration resistant for setting maximum pressures.
- **NEW SPRING MATERIAL:** more resistant to fatigue, powder paint resists rusting.
- **PISTON:** larger diameter - more strength and contact area for shifting alignment
- **DISCHARGE NIPPLE:** sealing o-ring has been moved to the lower part of the thread - increases hydro strength and fitting strength.
- **SHUTTER VALVE:** hex design - less contact area for smooth shifting (prevents binding), larger size - longer life more positive shifting.
